

2-in-1 car booster: Vehicle starter and power supply.

- Instantaneous vehicle starting
- LED lighting system
- 12 V DC power supply

SELF-CONTAINED STARTER

✓ The GYSPACK PRO instantaneously starts **cars and camper vans as well as petrol and diesel LGVs.** (Peak current of 1,750 A).

POWER SUPPLY

✓ **Its powerful, built in, 22 Ah battery** turns the GYSPACK PRO into a very useful, portable, 12 V power supply for many electrical devices, including televisions, lights and laptops, etc.

	4W 61h		15W 16h	
	9W 27h		24W 10h	80W 3h

Included:
- Automatic, 12 V charger (P.N. 054677)

INTEGRATED LED LIGHT

✓ Suitable for night-time use or for use in low-light environments, the GYSPACK PRO features a robust lighting system comprised of seven powerful LEDs (7 x 3.6 W).

PROFESSIONAL MACHINE

- ✓ **Automatic, float charger 230 V / 12 V:** for autonomously charging internal batteries.
 - Charge batteries up to 100%, maximising efficiency as well as the charger's working lifespan
 - Can be left permanently plugged into to the mains system (*the GYSPACK has to be charged after each operation*).
- ✓ **Equipped with a built-in tester** to check the internal battery's charge level.
- ✓ **ON/OFF button** to prevent misuse and user errors.
- ✓ **Reverse polarity alarm.**
- ✓ **Copper cables 2 x 1.10 m, \varnothing 25mm² with isolated 500 A clamps.**
