

The grinding machine vacuum sucks up wet and dry dust as well as small bits of dirt and debris from a wide variety of surfaces, making it a truly versatile vacuum cleaner. Its 30 L reservoir means that the machine can be used for long periods of time between oil changes, providing a high level of cleaning efficiency. Its simple design and sturdy, lightweight metal casing ensure that the wet/dry hoover is easy to handle and comfortable to use. The built-in filtration system which captures dust and debris, is extremely tough and durable.

POWERFUL CLEANING, WET OR DRY

The device is fitted with a powerful and quiet 2,000 W motor which ensures that surfaces are cleaned thoroughly with a suction power of up to 170 mbar. This generates a steady air flow of 2,700 L/min.

MAIN ADVANTAGES

- Built-in socket for connecting to other power tools: starts and stops automatically
- Powerful motor and high-efficiency turbine
- Thirty litre, stainless steel reservoir

ACCESSORIES INCLUDED

Grinding-machine coupling

GRINDING MACHINE NOT INCLUDED

Electric, orbital grinding machine with pad (Ø 152 mm):

| 230 V | 350 W | 4,000 - 10,000 tr/mn | 1.2 kg |

PN. 057999

FEATURES

Reservoir capacity	30 L
Power	1,400 W (2,000 W max.)
Airflow	cooling
Airflow rate	45 L/s
Pressure	> 17 KPA
Cable length	4.5 m
Tube dimensions	Ø 32 mm Length: 4 m
