

3 in 1 accessory essential for making straight plasma cuts, cutting a chamfered edge or making very precise circular cuts.

- 2 guide carriages with adjustment screws (torch screwing and support rotation lock).
- 1 compass kit ideal for making circular cuts between 40 and 82 cm in diameter.
 - Magnetic centring device for fast cuts on all ferrous surfaces.
 - Screw-in centring device for non-metallic materials.
 - Needle punch centering device for precise centering without perforating the sheet metal.
- **Compatible with plasma torches MT-70 and MT-125.**
