

The S90 inductor is fitted as standard on the 37LG (ref. **056992, 072510 and 080959**) and the 39LG (ref. **080027**). These inductors are used to heat small parts, mainly in vehicle maintenance. Thanks to their small size, heating is highly localised and allows access to difficult areas.

INDUCTORS IN ACTION

Steering tie rods

Crankshaft pulley

Seized nut

RECOMMENDED USES

Optimum use

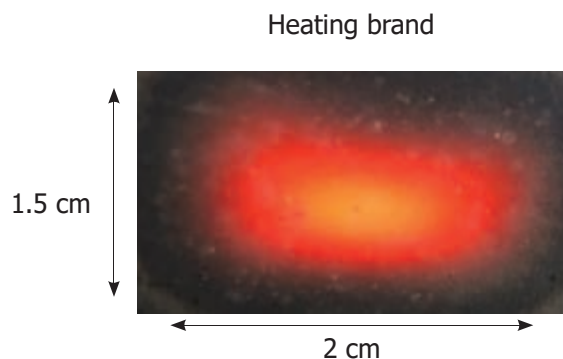

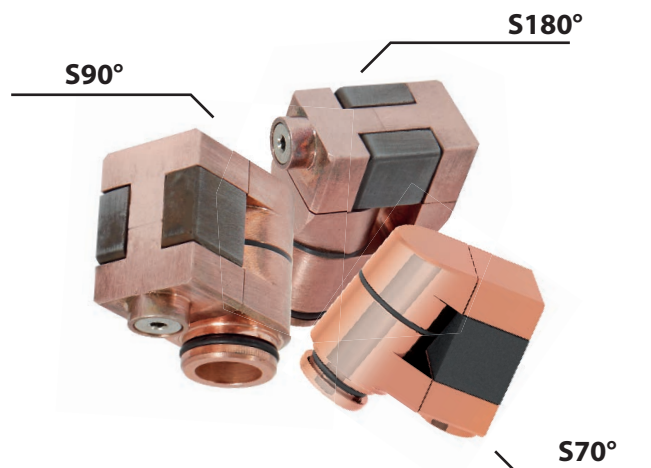

Dégrippage;
Garage VL.

Possible use

Small parts;
Preheating;
Straightening;
Dent removal;
Hardening.

Use Not Recommended

Heating on ALU (high thickness and copper)

PRODUCT COMPATIBILITY

Powerduction :		
37LG	056992 083387	Fixed adapter
39LG	058583 080027	+ Optional 28S adapter (064485)
50LG	055599	
110LG	058590 065246	With 32S adapter already supplied (064508)
160LG	057814 065253	
220LG	066861 074576
