

The air-cooled 350A MIG/MAG welding torch is the perfect answer to the needs of welders working on a wide range of jobs, guaranteeing consistent, foolproof welding. The non-slip coating and ball-and-socket joint on the handle make it exceptionally comfortable to work with.

Wide nozzle for better heat dispersion.

Ergonomic handle for excellent grip.

Flexible cable with ball-and-socket joint to reduce wrist torsion.

## HIGH PERFORMANCE

- Reliable, robust torch for perfect welding on all steels.
- High resistance to mechanical shocks and high temperatures.
- Smooth, jolt-free wire feed.
- Perfect compatibility with GYS equipment.
- Universal European connector (Euro).

Supplied in colour box  
(380 x 310 x 75 mm)

## FEATURES

Duty cycle	340 A at 60%*	
Cooling	air	
Compatible wire diameter	0.6-1.6 mm	
Original equipment	contact tube	Ø 1.2 mm - M8
	nozzle	Ø 16 mm
Applications	Steel structures, boiler making, structural steelwork	
Cable	length	4 m
	section	42 mm <sup>2</sup>

\*In pulsed welding, the duty cycle is reduced by 35%.

**MB 36**

Optional consumables box  
041417
