

The liquid-cooled 500A MIG/MAG welding torch is the perfect answer to the needs of welders working on a wide range of aluminium applications, guaranteeing consistent, foolproof welding. The non-slip coating and ball-and-socket joint on the handle make it exceptionally comfortable to work with.

Wide nozzle for better heat dispersion.

Ergonomic handle for excellent grip.

Flexible cable with ball-and-socket joint to reduce wrist torsion.

HIGH PERFORMANCE

- Reliable, robust torch for perfect welding on all types of aluminium.
- High resistance to mechanical shocks and high temperatures.
- Smooth, jolt-free wire feed.
- Perfect compatibility with GYS equipment.
- Universal European connector (Euro).

Supplied in colour box
(380 x 310 x 75 mm)

FEATURES

Duty cycle	500 A at 100%*	
Cooling	liquid	
Compatible wire diameter	1.0-1.6 mm	
Original equipment	contact tube	Ø 1.2 mm - M8
	nozzle	Ø 16 mm
Application	Thick sheet, high-current welding	
Cable	length	3 m
	section	16 mm ²

*In pulsed welding, the duty cycle is reduced by 35%.

MB 501

Optional consumables box
072381
