

The 450W liquid-cooled TIG welding torch is ideal for welders who need to carry out a wide range of jobs, guaranteeing consistent, foolproof welding. The highly flexible harness ensures a comfortable grip and easy handling. Interchangeable buttons allow the torch to be adapted to all welders and transformed into a remote control for raising and lowering the welding current (Potentiometer / Up & Down).

MODULAR DESIGN

The control modules can be changed at any time, in a matter of seconds, without the need for tools.
