

The SMART TACK 1 Kit is designed to meet your most demanding bonding requirements. With its three specialized nozzles, it guarantees optimal results for exterior and interior corners as well as butt joints (when used in combination with the Wizard SUPERTACK).

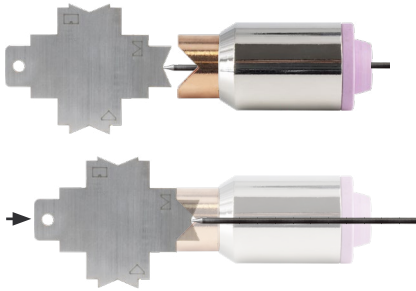

KIT CONTENTS

- 1 A two-piece adapter for 17/18/19 TIG welding torches.
- 2 An internal angle nozzle.
- 3 An external angle nozzle.
- 4 A butt-weld or lap-weld nozzle.
- 5 A shim for adjusting the tungsten, depending on the selected nozzle.

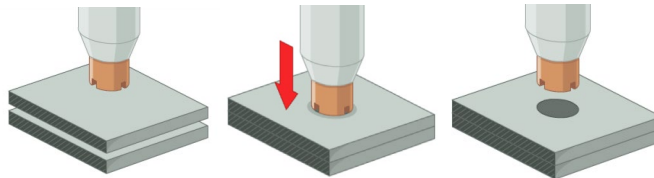

TUNGSTEN ADJUSTMENT

For each adapter, the adjustment shim ensures the exact distance between the workpiece and the tungsten electrode, thereby guaranteeing the optimal distance for a perfect weld.

FOCUS: SUPERTACK WIZARD MODE

Once reserved for industrial users with specialized equipment, the Wizard Supertack solution allows you to perform spot welding directly from your Titanium TIG power source, thanks to a specialized synergy.

COMPATIBLE FLASHLIGHTS

Versatile and cost-effective, our nozzle kit is compatible with the following standard and professional TIG torches:

TIG Torch	Gas	Torch Size	X% DC	X% AC				
			Current (A)	Current (A)	Mode	Length	Accessories	
TIG 17	Air	Ø 35/50 Amphenol	140 A (35%)	125 A (35%)	Classic	4m	B	072213
					Pro	4m	B	084124
						8m		084131
TIG 26	Air	Ø 35/50 Amphenol	180 A (35%)	150, A (35%)	Classic	4m	B	072220
					Pro	4m	B	084162
						8m		084179
TIG 18	Liquid	Ø 35/50 Amphenol	320 A (100%)	240, A (100%)	Classic	4m		084063
					Pro	4m	B	084148
						8m		084155
